Ankara solar-powered communication cabinet inverter popular science

Ankara solar-powered communication cabinet inverter popular science

U.S. officials Investigating Rogue Communication Devices in Solar Power

These inverters, which are essential components that convert direct current from solar panels into alternating current usable by the electrical grid, were found to contain undocumented ...

The Hidden Threat: How Rogue Communication Devices in Solar Inverters

This investigative article exposes the discovery of undocumented communication devices hidden in Chinese-made solar inverters, creating unprecedented vulnerabilities in global power grids.

Secret comms devices, radios, hidden in solar inverters from China

Two insiders at the US Dept of Energy say they have found covert devices inside solar panel inverters and batteries that would allow them to communicate with China. Even though firewalls have been put ...

US uncovers hidden radios in Chinese solar inverters, sparks alarm

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

Cybersecurity Alert: Undocumented Radios Discovered in Chinese Solar

In a shocking revelation that has sent ripples through the cybersecurity and renewable energy communities, security experts have discovered undocumented communication ...

Energy officials find unauthorized communication devices in Chinese

U.S. energy officials have found "unexplained" communications equipment inside some Chinese-made inverter devices, according to a report by Reuters published Wednesday.

US energy sector at risk, as Chinese inverters are under investigation

U.S. experts have allegedly found rogue communication devices, including cellular radios, in Chinese-made solar

inverters and batteries over the past nine months.

Rogue communication devices found in Chinese solar power inverters

The two people declined to name the Chinese manufacturers of the inverters and batteries with extra communication devices, nor say how many they had found in total.

Hidden Communication Devices Found in Chinese-Made Inverters

These undocumented communication modules offer an invisible back door into devices that regulate a growing share of the world's electricity. "It effectively means there is a built-in way to

Malicious communication devices discovered in solar ...

Following the discovery of unknown communication devices in Chinese solar inverters, US energy authorities want to reassess their risk.
