Battery electric vehicles bevs germany

12.8V 100Ah

Overview

The range includes models such as Volkswagen's entire ID. family, Audi's e-tron family, the Cupra Born, the Opel Astra Electric and Grandland Electric, BMW's iX1, iX2, i4, i5, i7, and iX models, the Mini Countryman Electric, the Ford Capri and Explorer, the. In Germany, around 1.22 million battery-electric cars were produced in 2025 — a 15 per cent increase compared to the previous year. The lacklustre year means Germany is behind. As 2024 draws to a close, the European Alternative Fuels Observatory (EAFO) begins a deep dive into the electric vehicle (EV) market performance across Europe's major automotive markets. But is this a cause for celebration, or did external factors influence the figures?

Tom Hooker, Autovista24 journalist, reviews the results. 8% of the new car market, up from 13.
