EU installs record 27 GWh of battery storage capacity in 2025

The EU installed a record 27.1 GWh of new battery storage capacity in 2025, driven by utility-scale projects that accounted for over half of new additions as the bloc races to build the ...

New report: EU installs 27.1 GWh of new batteries in 2025 as ...

27.1 GWh of new battery capacity installed in 2025, marking the EU's 12th consecutive record year for battery storage deployment. 55% of all new capacity came from utility-scale systems, ...

European battery storage installations to grow 36% in 2025, ...

European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a slowdown in growth to 15 percent after three ...

Europe's Battery Storage Hits 21.9 GWh Amid ...

Europe's battery storage grew 15% in 2024, but a slowdown looms. Experts urge an EU Action Plan to meet clean energy goals.

Utility Projects Drive Record EU Battery Storage Growth (PDF)

The European Union's battery storage sector achieved a historic milestone in 2025, adding a record 27.1 GWh of new

capacity. This 45% annual surge pushed total operational storage to 77.3 ...

EU installs 27.1 GWh of battery storage in 2025 as utility scale leads

The European Union added 27.1 GWh of battery energy storage capacity in 2025, with utility-scale systems accounting for the majority of new installations as residential storage declined ...

EU Battery Storage Capacity Soars 45% to 27.1 GWh in 2025

EU battery storage capacity hit 27.1 GWh in 2025--a 45% jump--with utility-scale deployments overtaking residential; C& I growth lagged.

EU battery storage additions hit 27.1 GWh in 2025, Germany leads

The EU installed a record-breaking 27.1 GWh of new battery energy storage system (BESS) capacity in 2025, with Germany and Italy topping the chart

again, while Bulgaria emerged as ...
