VDI 4630 (2016) Our AMPTS (Automatic Methane Potential Test System) III system is recommended by VDI 4630 and several international protocols for conducting biochemical methane ...

### Biochemical methane potential database: A public platform

With the development of in silico techniques, it is time to establish an updated database platform to collect available BMP data presently scattered in literature and no public ones, instead of ...

### Biochemical methane potential (BMP)

The biomethane potential or biochemical methane potential (BMP) of a specific substrate defines the maximum amount of methane that can be produced by anaerobic digestion.
