# **Bolts for the middle support plate of photovoltaic bracket**

## Overview

---

Middle Fastener – Secures components in the middle of the system. L-Type Fastener – Provides an L-shaped fastening point. Premium Material: Solar panel mounting brackets are crafted from aluminum alloy, offering lightweight construction, high load capacity, and strong corrosion resistance, making them ideal for various outdoor environments. You can extend the lifespan of your solar energy system, streamline installation, and achieve. Ensure maximum reliability in your photovoltaic panel installation: choose our specialised screws and bolts, made of stainless and galvanised steel, tested with thousands of solar power systems in Italy and Europe, according to the highest industry standards. Our photovoltaic bolts are built to. Two length 200mm and 250mm options can be suitable for adjust distance between brackets / L foot rails and metal roofing. [Application]: Solar pole bolts can be used to attach to the roof. Start by turning off the power to your solar panel system to avoid any electrical hazards.
