Building Energy Storage System Battery Warranty

Overview

To mitigate risks, BESS manufacturers may offer warranties for 10 years or more based on performance estimates. Understanding the basics of battery degradation can help you evaluate your warranty. Similar to your laptop or cell phone battery, you will notice over some time that your battery will be challenged to hold a charge for as long as it used to when it was new. This also applies to home battery. In 2025, battery storage is a significant capital investment, and warranties play a major role in protecting performance and financial returns over the system's life. Why Battery Warranties Matter Battery systems are complex. A standard battery warranty should come with at least 10 years of protection, though it can be shorter. Whether you're a solar farm developer, grid operator, or someone Googling "why does my battery keep sulking?"

", understanding warranty periods is your new superpower.

Building Energy Storage System Battery Warranty
