

**Espay Solar Energy S.L.**

# **Can solar power provide electricity for your own use**

## Overview

---

Going off the grid means your home produces and stores all its electrical power, often from renewable energy sources such as solar and sometimes a wind turbine. Instead of being dependent on your local utility company, you're your own electricity provider. Let's break down what off-grid living takes and how to do it right. It had a full range of amenities, including a washer and dryer, refrigerator, stove, satellite TV, propane. At SCE, we are dedicated to helping you harness the power of the sun through our solar programs. Installation of solar systems, 3.
