

**Espay Solar Energy S.L.**

# **Chile wind and solar energy storage project**

## Overview

---

Novem- Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale hybrid renewable energy plant that combines three technologies: solar, wind, and storage. The country as part of that ambition has a goal of producing at least 70% of its electricity from renewable energy by the end of. Chile has strong conditions for wind and solar energy, and is pursuing storage to help overcome intermittent supply (Image: Ximena Navarro / Dirección de Prensa, Presidencia de la República de Chile)

Renewable energy is Latin America's present and future. Located in the northern region of Antofagasta, the Pampas and Cristales projects will combine solar PV, wind and energy storage. During its recent participation in COP28 in Dubai, Chile not only reaffirmed its commitment to renewable energy, but also. Limes Renewable Energy, a global developer specialising in solar, wind, and battery energy storage systems (BESS) projects, has secured the environmental qualification resolution (RCA) for its Pradera Larga project in Chile's Valparaíso Region.

## Chile wind and solar energy storage project

---

### Chile Focuses on Solar and Storage as Generation Capacity Expands

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS).

---

### Chile makes progress on energy storage with 20+ approved projects

With 23 energy storage projects already approved, totaling an impressive 3,000 MW of capacity, Chile is at the forefront of innovation and efficiency in Latin America.

### Enel Green Power starts building battery project at hybrid

Novem- Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale ...

---

### Limes Secures Approval for Pradera Larga Solar-Storage Project in ...

Limes Renewable Energy has secured the Environmental Qualification Resolution (RCA) for its Pradera Larga project in Chile's Valparaíso Region -- a major milestone in the company's ...

### Chile moves on storage to 'decarbonize the night'

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

### Limes secures approval for solar-storage project in Chile

Limes Renewable Energy, a global developer specialising in solar, wind, and battery energy storage systems (BESS) projects, has secured the environmental qualification resolution ...

### Chile BESS news: AES project approved, Oenergy's refused

AES has seen a hybrid wind, solar and battery energy storage system (BESS) project in Chile receive an environmental permit, while Oenergy has suffered a

setback for a standalone project.

---

### **Chile: AES gets seal of approval for 3.1 GWh battery storage coupled**

The projects developed by AES Andes will be located in the Antofagasta region of Chile. It will feature a wind farm with an installed capacity of 140 MW and a 252 MW photovoltaic park, ...

---

### **AES Andes breaks ground on 1.3GW solar-wind-storage projects in Chile**

Utility AES Andes has started construction on two renewable energy projects in Chile, with a combined 1.3GW of capacity. Located in the northern region of Antofagasta, the Pampas and ...

---

### **Energy storage is a challenge and an opportunity for Chile**

Chinese companies have in recent years built, or announced plans to build, Chile's longest power line, solar plants

and wind farms, while in battery storage, solar giant Trina has ...
