Do photovoltaic panels have leaky rain gutters

Overview

Snow buildup on solar panels can slide down, causing significant wear and tear on rain gutters, often leading to cracks, sagging, or even complete detachment. The installers never said a word. am I stuck fixing this myself?

” No, you are not imagining things. Solar panel installation involves. With the increasing use of solar panels in cold regions, homeowners face new challenges: managing the impact of snow and ice on their homes. It is crucial to ensure that the installation is done correctly by a professional, or with thorough research and proper planning if you choose to do it yourself. Improvements to design and cost reductions continue to take place. Water can cause corrosion and electrical problems that can reduce the panels' efficiency or render them unusable.
