

**Espay Solar Energy S.L.**

# **Domestic sales of household energy storage battery packs**

## Overview

---

BloombergNEF and battery energy storage system provider Pylontech published a report on the residential battery energy storage market at the end of 2023. The full report is publicly available [here](#). The Residential Battery Market size is estimated at USD 26.93 billion by 2031, at a CAGR of 17.36% during the forecast period (2026-2031). 0 tariff, Germany's KfW 442 rebates, Japan's feed-in-premium (FIP). The home energy storage battery pack market is experiencing robust growth, driven by increasing electricity prices, rising concerns about grid reliability, and the expanding adoption of renewable energy sources like solar power. After showing a year-over-year increase of 80 percent in 2023, the capacity of battery storage installations in the U.
