## Overview

---

Rwanda's government has introduced a range of fiscal and regulatory measures aimed at making electric vehicles (EVs) more affordable and accessible for both consumers and businesses. These initiatives play a central role in the country's efforts to achieve its goal of 20%. Rwanda's urban mobility strategy integrates climate ambitions with everyday welfare, promoting clean transport and setting ambitious carbon reduction targets. Rwanda's former Director General for. © 2025 The World Bank 1818 H Street NW, Washington DC 20433 Telephone: 202-473-1000; Internet: www. org Some rights reserved This work is a product of The World Bank. This plan aligns with the country's Vision 2050, which aims to reduce greenhouse gas emissions by 38% by 2030 and achieve carbon neutrality by 2050. Key highlights include: Tax incentives: focus on promotion of Plug-in-Hybrid electric vehicles (PHEV) Outla ders and el ment Management Authority (REMA), Government of the Republic of Rwanda (GoR), Kigali, September, IFC/World Bank expressed interest to partner with Rwanda to introduce e-buses in City of Kigali (CoK). In this c. Safety is a top priority for car buyers in Rwanda, particularly as traffic density increases and vehicles become more technologically advanced.
