## Overview

---

com - (Banjul, The Gambia) - A sudden power outage at Banjul International Airport, on Saturday, has exposed significant lapses in infrastructure preparedness, forcing flight diversions and raising concerns about The Gambia's reputation as a safe and reliable. Gambiaj. The. Gambia's Minister of Information, Dr. Ismaila Ceesay, has issued a public apology to passengers of SN Brussels following an airport power outage that led to two flights being diverted to Dakar on Saturday. The incident, which coincided with maintenance work on the new 225 kV electricity line from Brikama to. The Gambia Electricity Grid Rehabilitation and Extension Project (GESREP) aims to improve access to electricity and ensure reliability of electricity supply. The project will provide last-mile connection equipment, including prepaid meters, and allow poor households to connect and manage their own. A massive power outage has plunged the Greater Banjul Area into darkness, with impeccable sources close to the National Water and Electricity Company (NAWEC) attributing the blackout to a spark at an OMVG transformer station in Brikama. The Director General of the Gambia Civil Aviation Authority (GCAA), Nfansu Bojang, attributed the incident.
