Fiji lithium-ion batteries

Overview

Fiji Airways allows lithium-ion (Li-ion) batteries under 100Wh and lithium-metal batteries under 2g. Batteries between 100-160Wh (e., professional cameras) require airline approval. All baggage, cargo and any hand luggage carried on all Fiji Airways aircraft will be subject to mandatory safety and security screening and searching, through the use of: X-Ray machine Physical and Manual search Use of hand held detectors Please be aware physical and manual searches may be carried out. Passengers can bring lithium ion batteries for portable electronic devices on Fiji Airlines. Cavalevu highlighted his apprehension regarding. Passengers may carry up to 20 spare lithium batteries total. Each battery must be in original packaging or insulated with tape on terminals. Quantities exceeding this limit require hazardous materials documentation and prior airline. Fiji Airways Captain Josua Cavalevu has raised concerns about the fire risks associated with lithium-ion batteries carried by passengers. Speaking at a recent Civil Aviation Bill 2026 consultations committee in Nadi, he highlighted that a fire in the cargo compartment remains one of his biggest.
