

**Espay Solar Energy S.L.**

# **Foreign countries have chinese solar-powered communication cabinet batteries**

## Overview

---

experts found undocumented communication modules and secret radios embedded in some Chinese-manufactured solar inverters and battery systems. Not listed in product documentation, these shadow components create hidden backdoors that can circumvent utility firewalls and allow. A reported backdoor in solar hardware has set off alarms from Washington to Brussels over foreign control of key energy infrastructure. Solar panels fields on the green hills stock photo. energy officials are reportedly reassessing the security risks posed by Chinese-made. An organization is calling for an investigation into the national security risks posed by Chinese-made solar products. Power inverters can be found in solar panels and wind turbines that are connected to the electricity grid as well as batteries, heat pumps, and electric vehicle chargers. energy-sector forensic teams have begun disassembling Chinese-manufactured solar inverters and grid-scale batteries after discovering undocumented 4G/LTE modules and other wireless communication transceivers buried on the circuit boards, according to two people involved in the tear-downs. A growing wave of concern has emerged in the United States after American cybersecurity experts discovered.

### 'Rogue' Chinese spyware found on solar, battery equipment

Over the past nine months, undocumented communication devices, including cellular radios, have also been found in some batteries from multiple Chinese suppliers, one of them said...

### Ghost in the machine? Rogue

## communication devices found in Chinese

Over the past nine months, undocumented communication devices, including cellular radios, have also been found in some batteries from multiple Chinese suppliers, one of them said. ...

### HEAT DISSIPATION

Cold aisle containment,  
making optimal refrigeration effect:

## Rogue communication devices found in Chinese solar power inverters

Over the past nine months, undocumented communication devices, including cellular radios, have also been found in some batteries from multiple Chinese suppliers, one of them said.

## US uncovers hidden radios in Chinese solar inverters, ...

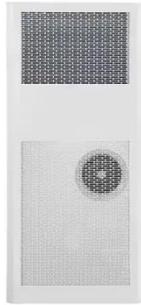

Experts uncover rogue devices in Chinese-made inverters and batteries, prompting U.S. and EU nations to review renewable tech security.

## China Policy Monitor No. 1635 , American Foreign Policy Council

Over the past nine months, unexplained communication equipment has been found inside Chinese power inverters used to connect solar panels and wind

turbines to electricity grids.
