

**Espay Solar Energy S.L.**

# **Gaotan Solar Power Generation Project**

 **TAX FREE**    

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

**ENERGY STORAGE SYSTEM**

## Overview

---

This hybrid power plant consists of a combination of 600 MW solar and 510 MW wind plants and deploys advanced renewable technologies like bifacial solar PV modules and horizontal single-axis trackers (HSAT) systems to enable maximum electricity generation from solar. This hybrid power plant consists of a combination of 600 MW solar and 510 MW wind plants and deploys advanced renewable technologies like bifacial solar PV modules and horizontal single-axis trackers (HSAT) systems to enable maximum electricity generation from solar. Adani Green Energy commissions 50 MW solar-wind hybrid project in Gujarat, boosting renewable capacity to 15,865.5 MW, while Adani Power secures Rs 6.075/unit bid for a 2,400 MW thermal power plant in Bihar under a \$3 billion phased rollout. A step-down subsidiary of Gautam Adani -led Adani Green. This is especially relevant for Project Developers and Large EPC players who purchase Solar Panels with a long-term product warranty spanning anywhere between 25 yrs to 30 yrs. Developers get their IRR and ROI based on high unit generation and continuing performance of solar panels over long. Billionaire Gautam Adani's group is building the world's largest renewable energy park in Gujarat, as it eyes a massive 45 GW capacity to generate electricity largely from solar energy. We are committed to accelerating Decarbonization across the corporate sector.

## Gaotan Solar Power Generation Project
