[com: Computer Uninterruptible Power Supply Units - Computer Uninterruptible Power Sup. : Electronics New customer?](#)

Start here. Check each product page for other buying options. But if you want to keep your home Wi-Fi network and some other key electronics up and running in the event of an outage, an uninterruptible power supply, or UPS, is worth the investment. For home users, a UPS can protect desktop PCs, gaming consoles, and smart home devices from unexpected power cuts. Unlike a backup generator, it does not need to power up in order to start generating. Power protection and battery backup for computer systems, office equipment, Point-of-Sale, networking, and other electronics.
