How long is the warranty for a 50kW Japanese inverter

Overview

Most standard string inverter warranties last between 5 and 12 years, and inverter failure during this period can result in complete system shutdown, leading to lost solar production and unexpected costs. String inverters typically come with 10-12 years of warranty coverage, whereas microinverters and power optimizers are often covered for 25 years. The warranty extension is available. Inverter warranties vary by manufacturer and inverter type. Extended Limited Warranty: A purchased warranty for a number of years after the expiration of the Standard Limited Warranty. Yaskawa Solectria Solar Limited.
