# **How to best depreciate photovoltaic panels**

## Overview

---

In the first year of installation, you are eligible to claim the 100% depreciation bonus. Solar photovoltaic (PV) panels deliver a host of financial and environmental benefits to businesses looking to reduce energy spending and shrink their carbon footprint. However, the efficiency, value, and performance of PV panels all decline with age. Depreciation is the accounting mechanism that allows taxpayers to deduct the wear. These incentives, particularly tax depreciation options for solar panels, play a crucial role in making solar energy a more budget-friendly option. Different methods such as straight-line and declining balance.
