How to check the battery level of new energy battery cabinet

Overview

You'll see "Low Battery" in the Level Home app when the lock battery has ~20% life left. CR2 batteries are widely available online—including on Amazon—and can also be ordered directly from level. This product, when installed, is permanently wired to the home electrical panel. There are three main components as shown below, including the PWRcell Inverter (1), the PWRcell Battery Cabinet. When contacting an Independent Authorized Service Dealer (IASD) or Generac Customer Service, always supply the complete model number and serial number of the unit. Consult with the local Authority Having Jurisdiction (AHJ) to obtain the pro ge to the inverter or other attac ell as during future operation and maintenance.

How to Test Batteries to See If They're Fresh or Dead

Overview
Doing the Drop Test with Alkaline Batteries
Using a Voltmeter on Lithium and Alkaline Batteries
Checking a Car Battery
Diagnosing a Phone Battery
There are many different types of batteries, and you can test all of them to see if they're charged or not. Alkaline batteries bounce when they're going bad, so drop one on a hard surface to see whether or not it bounces. Take an exact voltage reading with a multimeter, voltmeter, or battery tester to get an exact charge reading. You can also use a See more on wikihow eg4electronics [PDF]

USER MANUAL BATTERY CABINET - EG4 Electronics

Before installing batteries into the cabinet, carefully remove all items from inside the cabinet and lay it on its back, preferably on a clean surface or a furniture blanket.
