How to use the photovoltaic panel unloading tool

Overview

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited. Packing list pasted outside the box contain all details including the serial no of modules. Adherence to these procedures is essential to maintain product integrity, ensure personnel safety, and comply with. This manual is for DMEGC solar PV module unloading instructions. If the fork length is less than. If your modules are damaged on arrival, notify the driver immediately, notify carrier and LONGi staff within 24 hours of delivery, and provide a record with detailed information within 48 hours of delivery. See claims and warranties for full details. To ensure safety when loading, unloading, unpacking and storing PV modules, please read this manual carefully.

When unloading, the whole modules should be balanced as far as possible, the forklift arm should be kept relatively horizontal, and the forklift truck should fork the modules out of the container slowly and ...

What are the photovoltaic panel loading and unloading equipment

The unique design of the Pafbag solar panel lifting bag offers innovative features to enable solar panels and other frame type loads to be lifted with speed and efficiency.

PV Module Unpacking, Handling and

Storing Guide

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.
