

Espay Solar Energy S.L.

Huawei Mauritius Battery Energy Storage Project

Overview

Under this contract, Huawei will deliver a comprehensive smart photovoltaic (PV) and energy storage system (ESS) solution, featuring a total capacity of 100MW and 290MWh of energy storage for projects being developed by Qair in Mauritius. [pdf] The project combines 400 MW of solar photovoltaic. Huawei Digital Power is committed to integrating digital information technology with PV and energy storage technologies, to build a more efficient, stable, and safe smart string energy storage system; using string, intelligent, and modular designs aimed at driving PV to become the main energy source for.
