Huawei base station power supply price

Overview

Find verified Huawei Communication Base Station Power Supply Unit R4850n1 suppliers and manufacturers offering competitive wholesale prices. Browse detailed specs, bulk order options, and OEM/ODM services on MadeinChina. The R4850N1 is a digital rectifier that converts the 85~300VAC to 53.5 VDC and possesses the characters of high efficiency, high power density, walk-in start, hot-plug, complete protection, and low noise. The PSU has an AC input (220 V), it is not equipped with a battery port. It ensures consistent operation with a 50A output current and supports 50/60HZ frequency, making it ideal for. With advantage of features like compact size, easy to install, compatible with battery rack stacking and standard open rack, excellent function of BMS, intelligence dormancy and remote management, etc. If you are interested, please let us know the specific model. Contact our sales team. Multiple models of embedded power products provide 30-400 A DC outputs and use rectifiers with an efficiency of up to 98%, and are highly applicable. The integrated field supervision unit (FSU) implements precise site management and intelligent control, including intelligent battery management and.
