

Espay Solar Energy S.L.

Huawei mobile energy storage power supply in Argentina

Overview

Chinese giant Huawei has introduced the LUNA2000-215 kWh system in Argentina for the commercial and industrial sector, aiming to reduce energy consumption, increase autonomy, and lower the carbon footprint. In partnership with Green Fusion, the technology company presented a modular solution at the Polo Industrial Ezeiza capable of reducing operational costs by 60% and ensuring production continuity in the face of power supply outages with energy storage. The energy storage system can employ a variety of energy storage methods and temperature control modes to maximize energy. Huawei outdoor power solutions are designed for carrier ICT sites. The all-in-one system supports multiple input (grid/PV/genset) and output (12/24/48/57 V DC, 24/36/220 V AC) modes. [pdf] The global solar storage container market is experiencing explosive growth, with demand increasing by over.

Huawei Digital Power has announced the signing of a key contract with SEPCOIII for its NEOM Red Sea project, which involves 400 MW of PV plus a 1300 MWh battery energy storage solution (BESS), ...

Home Energy Storage (Stackble system)

High Efficiency Easy installation Safe and Reliable Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackble design, effortless installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function
