Iceland s Future City solar Glass

Iceland's Future City solar Glass

5 Years warranty

Global Lessons from Iceland's Clean Energy Transition

Explore Iceland's clean energy transition and the global lessons it offers in sustainability, renewable power, innovation and climate resilience for the future.

Why Iceland is the Climate Tech Capital of the World

But the people of Iceland - like their Norse ancestors - punch above their weight. For it is also the land of extraordinary climate tech innovation, including carbon capture and storage, ...

Solar Cell Grant Program Strengthens Iceland's Energy Future

As a result, earlier this year, Orkustofnun announced a competitive grant program for solar cell installations, open to all applicants regardless of residency or occupation. The grants ...

Iceland Is Living in Our Future

While Iceland is not a major emitter of planet-warming emissions, the effects of climate change are already transforming its landscape and economy. One of its glaciers, Okjokull, has ...

The Silicon Valley of sustainability: Iceland as a model for Arctic

Iceland's success in leveraging renewable energy, sustainable practices, and innovation serves as a guiding example for the region. As the Arctic continues to evolve, it offers a unique ...

Iceland's Renewable Legacy: From Volcanic Heat to Energy Innovation

Iceland's latest venture aims to revolutionize energy production by exploring space-based solar power (SBSP) --a method of capturing solar energy without interruptions from weather ...

Iceland Solar Horizon: A Sustainable Future Through Solar Energy

This initiative seeks to use Iceland's long summer daylight hours to create a more resilient and diversified energy system.

Reykjavík's Climate City Contract approved , Reykjavik

The Climate City Contract represents the cities' overall vision for their path to carbon neutrality and includes both an investment plan and action plan. The development process has been ...

Green Future

Frederik, Crown Prince of Denmark and Guðni Th. Jóhannesson, President of Iceland, visited "Green Future" earlier this week. The interactive exhibition, designed by Gagarin was established by Green ...

The Incredible Land of Ice and Fire: Exploring Iceland's Renewable

This permanent exhibition teaches visitors about Iceland's geology, geothermal energy production, and the park's operations. Interested visitors can

book a tour here.
