

**Espay Solar Energy S.L.**

# **Kenya solar water pump foreign trade**

## Overview

---

According to Volza's Kenya Import data, Kenya imported 25 shipments of Solar Pump during Mar 2023 to Feb 2024 (TTM). These imports were supplied by 8 foreign exporters to 12 Kenya buyers, marking a growth rate of -65% compared to the preceding twelve months. This paper offers an overview of the solar water pumps technologies and market in Kenya. Against the backdrop of Kenya's increasing reliance on water pumping for food security and limited access to conventional energy sources, the paper explores the market's evolution. Through case studies and Volza's Big Data technology scans over 2 billion import shipment records to identify new Buyers, suppliers, emerging markets, profitable import opportunities, and promising products. This change helps farmers sustain crop yields and secure livelihoods. In June 2021, Efficiency for Access launched a field-testing project in Kenya to understand how off-grid solar appliances, including solar water pumps (SWPs) impacting the farmers' lives, how the pumps are performing, and what challenges the farmers have encountered while using the pump By Abigail. How does 6W market outlook report help businesses in making decisions?

6W monitors the market across 60+ countries Globally, publishing an annual market outlook report that analyses trends, key drivers, Size, Volume, Revenue, opportunities, and market segments.
