# **Large-scale renewable energy photovoltaic site in Sao Tome and Principe**

## Overview

---

The Santo Amaro solar park is a joint initiative of the Government, UNDP, UNIDO, and the AfDB. 7 MWp facility was developed in two phases: a 0.2 MWp expansion financed by AfDB. 7-megawatt, the Government of São Tomé and Príncipe has taken another concrete step toward achieving its national renewable energy targets and advancing the implementation of its NDC. 7 million euros and enjoys co-financing from prominent entities. São Tomé and Príncipe, with a population of about 220,000 people, is one of the smallest countries in Africa. It consists of two main islands near the Equator, with rainforests and many beaches. Although around 70% of rural areas in STP are electrified, many communities remain off-grid or face unreliable supply.
