# **Lead-acid battery rack type for charging stations in Xiong an New Area**

## Overview

---

Exponential Power modular rack system can be specified to accommodate any battery cell or jar. From flooded to sealed, from lead-acid to nickel-cadmium, from vertical to horizontal mounting, a high density, space-saving rack can be provisioned. In designing these easy-to-use battery racks, we have paid special attention to strength, flexibility. This article is for installation of vented lead acid batteries, battery racks and battery chargers in dedicated battery rooms for main substations, and installation of batteries in electrical equipment rooms. Alpine offers industrial battery racks in virtually every configuration, with standard and seismic racks available. No products match your current selection. They provide a safe and efficient way to store batteries, ensuring easy access and maintenance while optimizing space utilization. Two Tier Rack The two-tier is.
