Malaysia solar panels rooftop power generation

Overview

Discover Malaysia's Solar ATAP, the new rooftop solar scheme launching December 2025. Learn how this program replaces NEM, enabling 100% solar energy capacity with market-based incentives to lower electricity bills and boost renewable energy adoption. The Solar ATAP Programme is a continuation of the Net Energy Metering. Effective since Janu, the Solar Accelerated Transition Action Programme (Solar ATAP) aims to build on Malaysia's previous net metering program's efforts to maximize the use of rooftops for solar generation by incentivizing consumers to export excess generation to the grid. The capacity. This guide is for homeowners planning a first rooftop system, SMEs evaluating 30–100 kWp, and facilities teams managing multi-site portfolios. We'll keep things practical: approvals, tariffs, sizing for self-consumption, CAPEX vs OPEX, and what still matters after June 2025. 60/2025), launching 1 January 2026. Highlights: Fixed up to 10-year contract, single bi-directional meter, use-your-own-power first, surplus energy earns monthly. From 1 January 2026, the Solar ATAP programme will replace Net Energy Metering (NEM) as the country's main rooftop solar framework. (Sources: BusinessToday; Lowyat.
