# Morocco lithium battery inverter manufacturer

**LFP 12V 100Ah**

## Overview

---

The parent company, COBCO, is Morocco-based and is the fruit of a partnership between Al Mada and China's CNGR Advanced Materials. Rabat - COBCO announced the inauguration of the first lithium-ion material manufacturing unit on Wednesday in Jorf Lasfar. 6 billion investment from China. The facility, located in Kenitra, aims to produce 20 gigawatt-hours annually by 2026, with plans to expand to 100 GWh. This project is expected to create. With 42% of its electricity now from renewables (World Bank 2023), Morocco has become North Africa's clean energy laboratory. With a capacity of 40,000 tons, the project. The OCP Group (Office Chérifien des Phosphates), the world's largest phosphate producer, controls the full value chain from mining to refining and possesses the capability to convert phosphate into battery-grade iron phosphate precursors. This pioneering facility, with an initial capacity of 40,000 tons, marks a significant milestone in.
