

Espay Solar Energy S.L.

Natron sodium ion battery

Natron sodium ion battery

Another Sodium Energy Storage Startup Vows To Carry On After ...

"In 2020, Natron's sodium-ion battery became the first to meet the UL 1973 safety standard for energy storage systems, enabling commercial deployment in data centers."

Natron Energy: The Rise and Fall of America's Sodium ...

The sodium-ion battery startup that promised to revolutionize American energy storage shut down in September 2025, just months after ...

Natron Energy Shuts Down: Sodium-Ion Battery Pioneer Ends ...

Natron had positioned itself as a leader in sodium-ion battery innovation, developing a proprietary technology based on Prussian blue electrode materials. The company's batteries promised faster ...

Sodium Battery Manufacturer in the

U.S. , Natron Energy

Learn about the only sodium-ion battery manufacturer with operations based entirely in the U.S.

Sodium-Ion Battery Revolution Collapses: Natron ...

The future of energy storage has taken a dramatic turn as Natron Energy, the only North American company poised for large-scale sodium-ion ...

Battery Performance , Natron Energy

Our batteries deploy their energy load immediately with no settling or thermal waiting. In addition, Natron sodium-ion batteries deliver up to 10 times as many deep discharges as lithium-ion batteries and 50 ...

Natron's liquidation shows why the US isn't ready to ...

Sodium-ion battery startup Natron ceased operations this week, ending the company's 12-year quest to

commercialize its technology in the U.S.

Sodium-Ion Batteries & Sustainable Energy , Natron Energy

The secret behind Natron's sodium-ion batteries is our patented use of Prussian blue electrodes. Prussian blue, when combined with sodium ions, creates a chemistry that delivers super-fast ...

Our Chemistry , Natron Energy

By using patented Prussian blue chemistry, Natron is elevating the benefits of sodium-ion batteries, demonstrating clear advantages over traditional lithium-ion battery technology and providing a safer, ...

Natron Energy's Closure: Impact on Sodium-Ion Battery Industry

Natron was the first company worldwide to commercialize sodium-ion batteries using Prussian Blue. This technological milestone positioned the company as a

key player in a market ...

Natron's Closure Is Not the End for Sodium-Ion

Natron Energy, a Santa Clara, Calif.-based sodium-ion battery startup, ceased operation on 3 September due to funding issues.

Natron Energy's \$1.4B Battery Dream Short-Circuits

Just a year ago, Natron Energy announced a bold vision to transform the energy storage industry with a \$1.4B investment in a sodium-ion battery ...

Prussian Blue Sodium-Ion Batteries

Natron Energy's advanced sodium-ion battery technology is one of these solutions. This white paper explains the chemistry behind Natron's Prussian blue-powered sodium-ion battery technology

and ...

Only Sodium-Ion Battery Company in the U.S. , Natron Energy

Read more about Natron Energy, one of the top sodium-ion battery companies in the world and the only in the U.S.

'The bar is going up & up': Sodium-ion firm Natron ...

US sodium-ion battery firm Natron Energy has ceased trading, putting an end to its two domestic gigafactories. The news points to the ...

Battery Safety , Natron Energy

Discover our battery safety, including how sodium-ion batteries are inherently safe, non-hazardous, & nonflammable.

Sodium-Ion Battery Technology , Natron Energy

Natron's revolutionary sodium-ion battery technology leverages Prussian Blue electrode materials to deliver a high power, high cycle life, completely fire safe battery solution that's created sustainably ...

BluePack(TM) Critical Power Battery , Natron Energy

Looking to Buy? Our partners can set you up with the sodium-ion solution you need.
