# **New energy photovoltaic panel industry scam**

## Overview

---

With solar panel prices dropping due to increased production and technological advances and their efficiency improving, scammers are going door to door promising sorts of goodies: free rooftop solar panels at no cost to consumers and telling people that they'll never have to. With solar panel prices dropping due to increased production and technological advances and their efficiency improving, scammers are going door to door promising sorts of goodies: free rooftop solar panels at no cost to consumers and telling people that they'll never have to. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. While there are some government-funded solar. Like any industry experiencing rapid growth, the solar sector isn't immune to unscrupulous practices and solar fraud. People complain that they were deceived about costs and savings, misled about loans and with the Cons check what resources are available in your state: [usa.gov/state-consume-purchase-agreement](http://usa.gov/state-consume-purchase-agreement), or subscribing to a community solar. In a recent discussion on the solar panel industry, critical insights have emerged that challenge the common perception of this renewable energy sector. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work.
