New photovoltaic waterproof bracket

Overview

Our weldable solar mount provides a secure, fully waterproof attachment for photovoltaic panels on TPO and PVC roofs. Aluminum Alloy: Crafted from high-quality aluminum alloy with an anodized surface, these solar panel mounting brackets offer exceptional strength and wear resistance, ensuring long-term reliability. Reliable Performance: With a robust load-bearing capacity, windproof design, waterproof. At Roof Tech, we've been redefining solar mounting solutions since 1994. Built on decades of Japanese innovation, every product we design is engineered to stand up to the harshest conditions - from heavy snow loads to torrential rains, hurricanes and even typhoons. It adds an insulation layer and a long-life TPO/PVC material layer on top of the structural layer.
