# Photovoltaic energy storage battery bracket

## Overview

---

Solar energy storage racks serve as a structured system to hold batteries that store energy generated from solar panels. When sunlight hits solar panels, it generates direct current (DC) power that can either be used immediately or stored in batteries for later use. Check each product page for other buying options. We carry racks and enclosures from a number of manufacturers such as Simpliphi, Outback, and Midnite Solar. This place is called a "battery enclosure", or what is.
