

Espay Solar Energy S.L.

Photovoltaic panel warranty period

Overview

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often guarantees at least 90% production at 10 years and 80% at 25 years. A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. This way, you will. The duration of contractor warranties can vary. A solar panel warranty is a promise from the manufacturer to repair or replace your solar panels if they fail to meet specified performance standards within a certain period. These warranties typically cover two main aspects: Product warranty: This covers defects in materials or workmanship.
