

## Overview

---

In accordance with the California Environmental Quality Act (CEQA), the City of Long Beach Harbor Department (Port of Long Beach or Port), as the Lead Agency, has prepared this Notice of Preparation (NOP) to seek input on the scope and content of the Environmental Impact. In accordance with the California Environmental Quality Act (CEQA), the City of Long Beach Harbor Department (Port of Long Beach or Port), as the Lead Agency, has prepared this Notice of Preparation (NOP) to seek input on the scope and content of the Environmental Impact. How to reduce the environmental impact of lithium-ion batteries?

Therefore, the development of efficient and large-scale recycling will likely play a major role in reducing the environmental impact from lithium-ion batteries in the future. What is a lithium-based battery sustainability framework?

. The City of Industry has invited commercial and industrial development for decades. But locals said there's a lack of transparency around the impacts of environmental pollution. A local resident near City of Industry voices their concerns about a plan to build a high capacity energy storage. Cirba Solutions proposes to expand their industrial scale spent lithium-ion battery (LiB) recycling facility in Lancaster, Ohio ('proposed project' or 'Facility'). Once expanded, the Facility would produce enough battery precursor materials to supply over 100,000 electric vehicles (EVs) annually. Battery Energy Storage Systems, or BESS, help stabilize electrical grids by providing steady power flow despite fluctuations from inconsistent generation of renewable energy sources and other disruptions.

## Public announcement of environmental impact assessment for lithium

---

### LA residents protest new battery storage facility, fearing fire risk

The item of contention on the agenda? The construction of a new 400-mega watt battery energy storage facility that would update the regional power grid's capacity. The public comment was ...

---

### Draft Environmental Assessment

DOE encourages public participation in the NEPA process. This Draft Environmental Assessment (EA) is being released for public review and comment. The public is invited to provide ...

---

### Environmental impact assessment of lithium ion battery employing ...

Consequently, increasing the proportion of clean energy in the electrical grid mix has been identified as an effective strategy for reducing the Life Cycle Impact Assessment (LCIA) of Li-ion ...

---

### NOTICE OF PREPARATION OF A DRAFT ENVIRONMENTAL ...

Potential Environmental Impacts: A Draft Initial Study/Mitigated Negative Declaration (IS/MND) (State Clearinghouse No. 2024120596) was previously published in December 2024 to disclose the ...

### Battery Energy Storage Systems: Main Considerations for Safe

This webpage includes information from first responder and industry guidance as well as background information on battery energy storage systems (challenges & fires), BESS installation ...

### Life cycle environmental impact assessment for battery-powered ...

As an important part of electric vehicles, lithium-ion battery packs will have a certain environmental impact in the use stage. To analyze the comprehensive environmental impact, 11

### Public announcement of environmental impact assessment for ...

This thesis provides an assessment of the life-cycle environmental impact of a lithium-ion battery pack intended for

Test certification  
 CE FC

energy storage applications in 16 different impact categories.

### [SMM Analysis] Another Recycling Project Commences in Inner ...

The Environmental Ecology Branch of Horqin Left Wing Rear Banner recently initiated the public participation announcement for the environmental impact assessment of a local environmental ...

### Environmental Impact Assessment in the Entire Life Cycle of Lithium ...

The growing demand for lithium-ion batteries (LIBs) in smartphones, electric vehicles (EVs), and other energy storage devices should be correlated with their environmental impacts from ...
