# **Selling solar power on your roof**

## Overview

---

This guide will explain how selling a house with solar panels works with the different types of financing. Despite common misconceptions, rooftop solar could make your home more valuable -- and quicker to sell. Solar panels can appeal to potential buyers for your home, but they can also make the selling process more complicated. So you want to put solar panels on your roof, but you're not sure if you'll. Self-consumption beats exports - Maximizing the solar electricity you use directly in your home typically provides better financial returns than exporting excess to the grid, especially with time-of-use rates and battery storage becoming more common in 2025. With more homeowners going solar, this question is coming up a lot: does it help or hurt when it's time to sell?

The truth is, it depends.
