Solar Photovoltaic Power Generation Germany

Overview

In Germany, net public electricity generation from renewable energy sources reached a record share of 62.2 terawatt hours in 2024, and the expansion of photovoltaics continued to exceed the federal government's. Solar power accounted for an estimated 15% of electricity production in Germany in 2024, up from 11.9% in 2023. Despite being among the countries with the least sunshine hours, Germany is one of the largest solar power producers in the world. 9 percent, as in the previous year.

Solar Photovoltaic Power Generation Germany

Solar power in Germany

Since 2004 solar power in Germany has been growing considerably due to the country's feed-in tariffs for renewable energy, which were introduced by the German Renewable Energy Sources Act, and ...

German Net Power Generation in 2024: Electricity Mix Cleaner than Ever

In Germany, net public electricity generation from renewable energy sources reached a record share of 62.7 percent in 2024. Solar power generation reached a new record of 72.2 terawatt ...

Photovoltaic Industry in Germany

The photovoltaic industry is playing a key role in shaping Germany's sustainable energy future. Germany can look back on decades of solar energy experience and is considered as being a ...

Germany installed 16.2GW solar PV in 2025

Germany installed 16.2GW of solar PV in 2025, according to an analysis by the Fraunhofer Institute for Solar Energy Systems (ISE) and based on the energy-charts data platform.

German Public Electricity Generation in 2025: Wind and Solar Power ...

Wind power took first place as the strongest net electricity producer, followed by photovoltaics, which increased its production by 21 percent in 2025 and overtook lignite for the first time.

Germany deployed 100 Gigawatts of solar power , Climate State

Saturday, Janu: The Market Master Data Register (MaStR) officially announced

recorded 100 gigawatts (GW) of installed photovoltaic power generators. Bottom line, the ...

Solar photovoltaics in Germany

Discover all statistics and data on Solar photovoltaics in Germany now on statista !

Solar shines as Germany's top electricity source in April

Solar farms are set for a record stretch of power sector dominance in Germany after becoming the single largest generation source in the country at the earliest point of the year ever.

Solar power in Germany - output, business & perspectives

Far from being a sun-drenched country, Germany boasts one of the world's highest solar power outputs. The country

triggered the large-scale launch of the technology with guaranteed feed-in tariffs in the ...
