

**Espay Solar Energy S.L.**

# **Solar energy storage project installed in Cork Ireland**

## Overview

---

Tibbotstown Solar Farm & Battery Energy Storage System (BESS) is a proposed renewable energy project in County Cork. Covering 118 hectares across four land parcels, the project will generate clean electricity, reduce carbon emissions, and support Ireland's transition to a. Researchers at the International Energy Research Centre (IERC) based at Tyndall National Institute (a research flagship of University College Cork), are piloting a state-of-the-art prototype high-capacity thermal energy storage system as part of the, EU Horizon Europe funded, MiniStor project. We commissioned our first battery energy storage system at our Aghada generating site in Co Cork in 2022, capable of generating 19MW.

## Solar energy storage project installed in Cork Ireland

---

### Battery Storage

We commissioned our first battery energy storage system at our Aghada generating site in Co Cork in 2022, capable of generating 19MW. We added a second battery on the same site in 2024 with an ...

### ESB Launches Largest Battery Energy Storage Project in Co Cork

ESB has officially opened a 150MW (300MWh) battery energy storage system (BESS) at its Aghada site in County Cork, marking a major milestone in Ireland's renewable energy infrastructure.

### Irish wind and solar farms sold in EUR1.4bn deal

Renewables-giant Ørsted is set to sell its European onshore renewable energy business to Copenhagen Infrastructure Partners in a EUR1.4bn deal. The Cork-headquartered unit develops and ...

**Building Ireland Magazine/**

Researchers at the International Energy Research Centre (IERC) based at Tyndall National Institute (a research flagship of University College Cork), are piloting a state-of-the-art ...

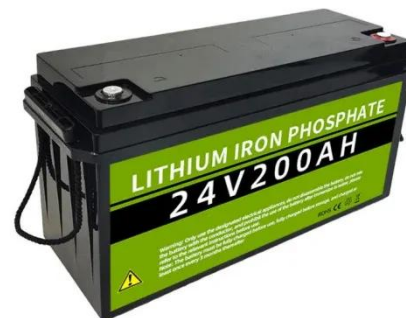

### **European researchers test pioneering solar energy system in Cork**

A pioneering system which captures and stores energy from the sun and which could help slash home heating bills is being tested in Cork as part of a major pan-European research project.

### **Pioneering Renewable Energy Solution Installed at Cork Property**

The core of the MiniStor (Minimal Size Thermal and Electrical Energy Storage System for In-Situ Residential Installation) project is a novel approach to energy storage, offering a sustainable ...

### **Tibbotstown Solar Farm by Power Capital - Tibbotstown Solar Farm ...**

Tibbotstown Solar Farm & Battery Energy Storage System (BESS) is a

proposed renewable energy project in County Cork. Covering 118 hectares across four land parcels, the project will generate ...

## ESB officially opens its latest battery storage project in Co Cork as

ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver ...

## Smart Storage

As part of the project, Cork City Council will prioritise solar energy generation over using grid electricity. The storage system will also take pressure off the wider electricity grid as the fire station will have ...

## ESB opens 150MW battery storage plant in Cork

ESB has opened a major battery plant at its Aghada site in Co Cork, adding 150MW in energy storage to help

provide grid stability and deliver more renewable power.
