

**Espay Solar Energy S.L.**

# **Solar panel grid-connected power generation income**

## Overview

---

You can make money from solar power by selling excess electricity back to the grid through net metering, earning solar renewable energy certificates (SRECs), leasing your rooftop to solar companies, and investing in or developing solar farms. However, there are policies in place to govern how utilities. Most homeowners see \$600-1,500 in annual bill reductions rather than income payments. Location dramatically impacts profitability - With 34 states plus D. offering mandatory net metering and others having limited programs, your state's policies can make or break the financial case for solar. In fact, in states like California, some homeowners can earn up to \$3,000 a year just by exporting extra electricity. Feed-in tariffs (FITs) are policies.
