

Espay Solar Energy S.L.

Supermarket uses solar power

Overview

Leading chains such as Kroger, Publix, Aldi, H-E-B, Giant Eagle, Stop & Shop, Giant Food, Whole Foods, Target and Walmart are among those that have added solar panels to stores and other facilities, and a few retailers have set impressively high standards around renewable. Leading chains such as Kroger, Publix, Aldi, H-E-B, Giant Eagle, Stop & Shop, Giant Food, Whole Foods, Target and Walmart are among those that have added solar panels to stores and other facilities, and a few retailers have set impressively high standards around renewable. Supermarkets are energy-intensive by nature. From refrigeration and lighting to HVAC systems and automated checkout, the average grocery store racks up massive electricity bills. At the same time, customers and regulatory bodies are demanding more environmentally responsible operations. While. Learn how solar power can help supermarkets save money, increase energy independence, and combat climate change. The last thing managing directors want is for energy costs to consume the budget and reduce profitability.
