Overview

The production reduced its diesel generator fuel usage across all equipment by over 50% by using a mix of large mobile batteries, solar trailers, and solar battery systems. On screen, land and legacy go hand-in-hand in Ransom Canyon. Revolution is an American post-apocalyptic science fiction television series that ran from Septem, until , when it was cancelled by NBC. The integration of solar technology within narratives, 2. The real-world implications of solar. Ransom Canyon is a modern-day western saga starring Josh Duhamel and Minka Kelly — and behind the scenes, the crew was modernizing production, too. Filmed in New Mexico, the series became the first Netflix production to fully power its base camp by the sun for weeks on end. What's fascinating is how these series balance entertainment with education, subtly encouraging viewers to think about the role of renewable energy in our own lives. For starters, the streaming show that launched April 17 is aiming to.
