The difference between inverter battery and solar battery cabinet

Overview

Solar batteries store energy generated by solar panels for use when sunlight is unavailable, while inverter batteries provide backup power during outages. That expectation often comes from mixing up what a solar inverter does and what a solar battery does. The inverter converts electricity. Both are valuable, but they solve different problems. By utilizing solar batteries, homeowners can generate and store energy during the day. Many homeowners assume that solar batteries and inverter batteries are interchangeable, however, that's far from the truth. This conversion is critical because most household devices run on AC, while solar.
