

**Espay Solar Energy S.L.**

# **Trinity photovoltaic panel warranty period**

## Overview

---

Each residential solar system installed by Trinity Solar includes a 25-year warranty that covers the panels, inverter (by Solar Edge), and other equipment. We've been in business for more than 30 years, and we'll be here for you throughout. Although many solar providers offer warranties extending at least 25 years or longer, Trinity Solar isn't one of them. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts. The duration of contractor warranties can vary. How long do solar panels last?

Do solar panels work on cloudy days?

How many solar panels do I need?

Why is my electric/gas bill so high?

What is net metering?

How do I know if my house qualifies for solar?

What are peak and off-peak electricity hours?

What happens if I lose power?

Do I need to. For over 30 years, Trinity Solar has provided custom solutions and outstanding service.
