

**Espay Solar Energy S.L.**

# Uruguay exports solar containers

## Overview

---

Discover why Uruguay's Free Trade Zones offer a 100% tax-exempt platform for solar module manufacturing and export to Mercosur and global markets. Imagine a state-of-the-art production line sitting idle because a shipment of solar cells or EVA encapsulant is delayed for weeks at a congested port, ensnared in bureaucratic customs procedures. This single logistical bottleneck can erode margins and damage a new company's reputation before it. In 2024, Uruguay generated 99 percent of its electricity from renewable sources using hydropower (42 percent), wind (28 percent), and biomass (26 percent). North America leads with 40% market share, driven by streamlined permitting processes and tax incentives that reduce total project costs by 15-25%. Europe follows closely. In 2024, Uruguay was the number 82 (out of 193) economy in the world in terms of GDP (\$81B current US\$), the number 95 (out of 226) in total exports, the number 57 (out of 193) economy in terms of GDP per capita (current US\$). Uruguay's free trade framework provides a stable and remarkably efficient platform for solar module. How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively monitors the Uruguay Solar Energy Storage Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook.
