

**Espay Solar Energy S.L.**

# **Wellington power energy storage power**

## Overview

---

The Wellington Stage 1 BESS is AMPYR's first grid-scale battery energy storage system to reach financial close in Australia. This project is scheduled to be energised in 2026, signaling a significant step towards bolstering Australia's renewable energy capacity and grid. A-CAES can provide reliable energy security for more than 50+ years, and is poised to be a key part of the energy transition in New South Wales. As part of this transition, the A-CAES project being considered in Wellington will create hundreds of jobs, and bring hundreds of millions of dollars in. The project will include the full suite of Fluence's innovative storage products, including Gridstack™, a 20-year service contract, Mosaic bidding software, and Nispera asset performance management software SYDNEY, J(GLOBE NEWSWIRE) -- Fluence Energy, Inc. In a statement, AMPYR said it had been joint venture partners with Shell in the New South Wales project since October 2022. Strategically positioned between hydroelectric facilities and wind farms, this \*150 MW/3 0 MWh battery s rage market. Ever wondered who cares about a massive energy storage facility?

Spoiler alert: everyone from tech nerds to coffee shop owners. This article speaks to: Curious citizens typing "what's that giant warehouse near Wellington?"

" Fun fact: Last month, a local bakery owner actually asked if they could plug.

## Wellington power energy storage power
