

**Espay Solar Energy S.L.**

# **Which company generates solar power in China**

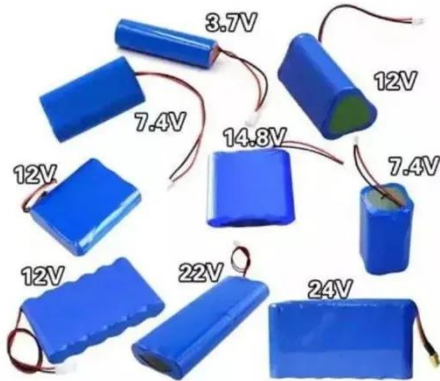

## Overview

---

Explore the updated 2026 list of China's top 10 solar companies, including leading PV manufacturers like JinkoSolar and specialists like Grace Solar. Learn about their market focus and key strengths. However, the industry in 2026 is navigating a transformative phase. While the "Silicon Module Super League" giants face margin pressures due to oversupply, as noted in recent. Wind and solar surpassed a quarter of China's electricity generation for the first time in April 2025. Its PV capacity crossed 1,000 gigawatt (one terawatt, 1 TW) in May 2025. [1]. The company, SOFAR, is a provider of comprehensive solar PV and energy storage solutions, emphasizing its commitment to digital energy innovations. China is not just building solar farms; it is constructing energy-generating titans, behemoths of photovoltaic technology that are redefining the limits of renewable. China's massive solar panel factories are key players, and knowing which are the biggest is crucial.
