# **Which is better the Photovoltaic Index or the ChiNext**

## Overview

---

Since early January 2025, sentiment in the A-share market has recovered, with the ChiNext Index surging by more than 10%, outperforming the broader market. VanEck ChiNext ETF (CNXT) provides exposure to the 100 largest and most liquid China A-share stocks listed and trading on the ChiNext Market of the Shenzhen Stock Exchange. Designed to help “galvanise growth in emerging industries of strategic importance”, this high-tech board was originally proposed by the Chinese government in 1999 and launched 10 years later, on . The index has a higher allocation to new-age industrials, healthcare and information technology sectors than other China indices (see. The ChiNext Index rose by 0. It is advisable to solve the dilemma through market-oriented means, and it should also give full play to the role of the government's visible hand. The market fluctuated and diverged.
